

Smart Maritime Challenge 2025

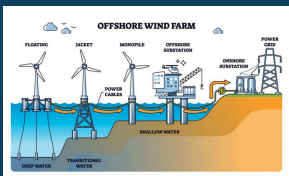

CYBERRANGE JEOPARDY CTF

MTU & Cyber Innovate will host a Capture the Flag competition in the new Nimbus Centre cybersecurity labs on the 26th September 2025 in partnership with the NMCI, the Irish Naval Service, the Irish Defence Forces and members of the Irish Offshore Renewable Energy sector

COMPETITORS WANTED

We are looking for experienced cybersecurity professionals from the Irish Offshore Renewable Energy industry sector to participate. No previous CTF experience is needed as you will be briefed on the day on how to participate. The challenge has been developed by MTU by Airbus & gives you an opportunity to use our state-of-the art cyber security lab & Airbus CyberRange equipment.

CONTEXT

The Port of Cork has just been the victim of a major cyberattack by a group of hackers using sophisticated techniques. The port's information systems have been completely paralysed, but that's not all. A simultaneous attack was also carried out on a ship at the entrance to the port, totally paralysing it and blocking all incoming and outgoing traffic.

Working in teams your task is to understand the attack, regain control of the ship and help Europol to identify the lead hacker.

CONTACT INFO

Places are limited and will be allocated on a first come, first served basis. For more information and to register your interest please contact Sarah O' Donovan at:
